RECEIVERS

**RENEWED CITATION OF PUBLICATION**

U.S. Patent and Trademark Office  
Randolph Building  
401 Dulany Street, Customer Window, Mail Stop Issue Fee  
Alexandria, VA 22314

Dear Sir:

Applicants again bring to the Examiner's attention published U.S. Patent Application 2003/0032400, which is identified on an attached PTO-1449 Form, merely for convenience. The cited published patent application was published February 13, 2003 and the principal classification is Class 455, Subclass 186.1.

The initial patentability search for this patent application was made May 25, 2004. That search encompassed Class 455, Subclass 186.1 and was made more than 15 months after the publication of the cited published patent application. However, the cited published patent application was not listed as one of the references cited in the first Office Action mailed July 2, 2004.

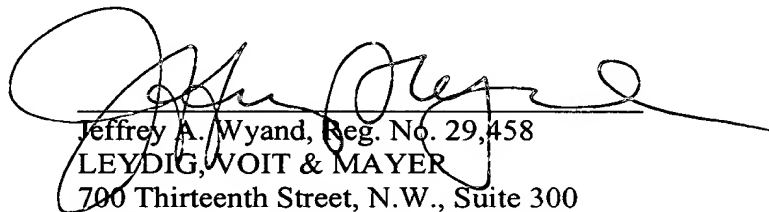

The cited published patent application was first mentioned in the present patent application in the response to the first Office Action that was filed on September 21, 2004. As pointed out in that response, the publication has not been shown to be prior art pursuant to any part of 35 U.S.C. 102.

In re Appln. of BARNETT et al.  
Application No. 09/784,220

The initial patentability search for the present patent application was brought up-to-date by the Examiner on December 8, 2004. At the same time, an interference search was made. Both of those searches covered Class 455, Subclass 186.1 and were made some twenty-two months after the publication of the cited published patent application. Again, the cited published patent application was not identified by the Examiner as pertinent to the patentability of any claim of the present patent application.

The present patent application was allowed on December 15, 2004 and the issue fee was paid on December 23, 2004.

Respectfully submitted,

Jeffrey A. Wyand, Reg. No. 29,458  
LEYDIG, VOIT & MAYER
